Isherwood:

Flannery Climate Commission report is a galactic fraud

“The Tim Flannery Climate Commission’s *The Critical Decade* report is an act of desperation by fanatical genocidalists. It is sheer quackery, with the clear intent to stampede the population into accepting depopulation, i.e. mass murder,” Citizens Electoral Council leader Craig Isherwood said today.

“Flannery’s report was designed to portray the entire debate over global warming as ‘settled’, and to finger the mass of human beings as the culprits for this non-existent global warming—the same human beings whom his patron Prince Philip regards as sheep to be culled,” he said. “So Flannery’s job is to baffle the public with unscientific statistical and computer model bullsh*t!

“Flannery’s report is a galactic fraud!” Mr Isherwood charged. “What is stunning is that the ‘science’ is presented as if our Earth exists in totally empty space, by itself, mostly unaffected by any other forces than man’s supposedly ‘destructive’ carbon dioxide emissions.

“This galactic fraud is immediately exposed by anyone following the real science work being produced by Lyndon LaRouche’s basement research team on cosmic radiation. (Go to :http://cecaust.com.au/main.asp?sub=articles&id=Background_science_economics.html)

“Simply put,” Mr Isherwood said, “there is no such thing as ‘empty space’, except maybe in Tim Flannery’s head.

“Instead, our Earth, for billions of years has been continually bombarded by huge forces associated with the various types of cosmic radiation emanating from that giant fusion reactor called our Sun, but also from the furthest reaches of our galaxy through supernovae, like the Crab Nebula.

“Over this long history, our Earth is also shielded from these forces, in varying degrees and effectiveness by constantly changing gravitation, magnetic and electric fields, about which we know relatively little.

“Real scientists acknowledged the major role of cosmic radiation in our developing biosphere; for example, the great Russian biogeochemist Vladimir Vernadsky 100 years ago wrote in his definitive work, *The Biosphere*:

‘The face of the Earth viewed from celestial space presents

a unique appearance, different from all other heavenly bodies. The surface that separates the planet from the cosmic medium is the biosphere, visible principally because of light from the sun, although it also receives an infinite number of other radiations from space, of which only a small fraction are visible to us. We hardly realize the variety and importance of these rays, which cover a huge range of wavelengths ... A new character is imparted to the planet by this powerful cosmic force. The radiations that pour upon the Earth cause the biosphere to take on properties unknown to lifeless planetary surfaces, and thus transform the face of the Earth. Activated by radiation, the matter of the biosphere collects and redistributes solar energy, and converts it ultimately into free energy capable of doing work on Earth.” [emphasis added]

Mr Isherwood continued, “As reported comprehensively on our website, our Earth is part of a very dynamic, high energy and dangerous galaxy, which is just one of billions of galaxies. Currently, we face a *real* threat, as opposed to the hysterical nonsense made about increased carbon dioxide levels (http://cecaust.com.au/main.asp?sub=releases&id=2009_03_06_CO2.html), and that is the possibility of some extinction event, highlighted recently by the spate of large earthquakes and increased volcanism around the world, coinciding with the 62 million year cycle of our solar system ‘bob’ above and below the plane of our Milky Way Galaxy.

“While real scientists, starved of funding, are fighting hard to perfect ways to predict such events, the British-dominated science ‘establishment’ lies that they are unpredictable, and instead splurge billions on computer programs to fabricate the global warming fraud.”

Mr Isherwood concluded, “Accepting the claims of climate scientists on faith, as Tim Flannery demands, drags society back to the Dark Ages of astrologer priesthoods. Check out the science reports on the CEC website www.cecaust.com.au so you can begin to find out for yourself.” (Rim of Fire page, Cosmic Radiation page, Australian Almanac, Extended Sensorium page, Moon-Mars page, Redefining Green.)

Nazi collaborator Soros behind Carbon Cate's 'tax me' ad

Foreign billionaire hedge fund speculator, drug pusher and Nazi collaborator George Soros is the *éminence grise* behind the Cate Blanchett carbon tax ad, which is sponsored by Soros' Australian front, GetUp.

"The media circus over Cate Blanchett is irrelevant," Citizens Electoral Council leader Craig Isherwood declared today. "The real issue is George Soros' underhanded intervention to manipulate Australian politics."

By his own admission, George Soros was a witting participant in the Holocaust, as a Nazi collaborator with the extermination machine run by Adolf Eichmann in Soros' native Hungary. In at least two television interviews, in 1994 and 1998, Soros freely admitted to his Nazi collaboration, and declared that he felt no guilt over his actions, or over the extermination of nearly a half million of his fellow Hungarian Jews. Even worse, he exulted in his autobiography that, "It was actually, probably the happiest year of my life—that year of German occupation. For me it was a very positive experience."

Soros went on to become an agent for the City of London, using his Quantum hedge fund as a political battering ram to smash nations and national currencies, under the personal direction of British cabinet minister Lord Malloch-Brown, a board member of the Quantum Fund.

Aside from forcing British imperial economic policies such as free trade and deregulation onto targeted nations, Soros has used his ill-gotten loot to madly push the legalisation of hard drugs and euthanasia. And, on behalf of British geopolitical strategy, he has helped topple national governments by financing the creation of fake "grassroots" protest movements, such as the Ukrainian "Orange Revolution" and Georgian "Rose Revolution", aimed at destabilising Russia. And GetUp is just one more fake "grassroots" movement. Look at the history.

GetUp is the Australian counterpart to Soros' MoveOn.org in the United States. The two co-founders of GetUp, Harvard graduates Jeremy Heimans and David Madden, both worked for the Soros-funded MoveOn.org in the U.S. to also launch the global web "movement", Avaaz.org. Madden was previously a consultant to the World Bank and Heimans previously consulted for the UN, OECD and ILO. And when GetUp suddenly popped up in 2005, this "people's organisation" boasted among its founding board members: John Hewson, former federal opposition leader, former Macquarie Bank Executive Director, and Trilateral Commission member;

Don Mercer, a mining chief, former ANZ CEO, and a past Director of the Australian Institute of Company Directors; and Evan Thornley, the super-rich Labor Party money-bags who was also National Secretary of the Australian Fabian Society, to which belong all of the ALP's leading advocates of population reduction—Julia Gillard, Bob Carr and Kelvin Thomson.

The Blanchett ad is also sponsored by the Australian Conservation Foundation, World Wide Fund for Nature Australia, Greenpeace Australia Pacific and the Australian Council of Trade Unions.

Mr Isherwood said, "It's not exactly surprising to see the Prince Philip-founded ACF in bed with a former Nazi collaborator, Soros. After all, Philip's own family in Germany was full of ranking Nazis as documented in the new film *Unlawful Killing*, while his two partners in founding the WWF in 1961—the mother of the world's entire environmentalist movement—were former Nazi SS member Prince Bernhard of the Netherlands and British Eugenics Society President Julian Huxley, and here in Australia the guy he deployed to do all the legwork in setting up the ACF, Francis Noble Ratcliffe, was a professed admirer of Mussolini. And of course Hitler's Nazi Party grew out of the post-World War I 'green movement' in Germany in the first place. Most of the top Nazis were Greens.

"So what is the ACTU doing in bed with Philip's ACF and WWF and the old Nazi George Soros? Perhaps it should explain to its members why it is spending their money to support a Nazi agenda, and one which will tax them out of existence, literally!"

George Soros, the billionaire who feels "no remorse" for collaborating with the Nazis, wants to carbon tax Australians.
