Isherwood: Defeat the Crown's plot for genocide— Save the Murray-Darling Basin food bowl!

Citizens Electoral Council leader Craig Isherwood today called for all Australians to join the fight to defeat the latest Murray-Darling Basin Authority (MDBA) plan to drastically slash food production in Australia's globally-significant food bowl.

"The Murray-Darling Basin food bowl is a target of the British Crown's genocidal drive to reduce the world's population to less than one billion people," Isherwood declared.

"The Crown has unleashed Green Fascism on the world to attack and destroy the very industries, the agriculture, and the infrastructure that are the only means to support a world population of seven billion people and growing."

Isherwood explained, "The CEC's latest *New Citizen* newspaper thoroughly documents how the Queen and Prince Philip personally founded and have led the Green Fascist movement over decades through the World Wide Fund for Nature (WWF), the Australian Conservation Foundation (ACF), and numerous similar fronts. (See http://cecaust.com.au/pubs/pdfs/cv7n6_pages48to50.pdf) Philip himself, for instance, played a crucial, on-the-ground role in founding the "first green party in the world", the United Tasmania Group (now the Australian Greens), out of the ACF's early 1970s campaign to stop the Franklin Dam in Tasmania, and he has publicly, repeatedly demanded that the world population be slashed by billions.

"Most Aussies hate the greens, but they have wilfully blinded themselves to the shocking, abundantly-documented truth that the only reason a bunch of feral fascists like the greens have acquired the power to shut down industries, destroy the livelihoods of countless thousands, and dictate policies such as the carbon tax, solar and wind power, and this MDBA plan, is because they are backed by the extensive power of the Queen and her nasty husband. If you think she is a "mere figurehead", then you are a self-deluded, suicidal fool.

"Australia's food bowl is one of their present targets for destruction," Isherwood said. "Every green group involved in the establishment of the MDBA and its planning for the Basin—the ACF, the Wentworth Group, the Ramsar Secretariat etc.—is closely tied to Prince Philip, the founder and former president (1971-76) of the ACF. Not content with slashing 3-4,000 gegalitres of water for irrigation (the previous MDBA plan), let alone the present 2,800 (which itself will decimate the Basin), Philip's ACF has demanded that the MDBA cut 7,600 gegalitres! That's just outright, intentional genocide, no matter how you look at it."

Isherwood accused the MDBA and Tony Burke of running away from genuine consultations with the Basin communities and using the local industry leaders as human shields to absorb the community backlash, because they actually *intend* to

annihilate those communities.

"Tony Burke is from Prince Philip's Wilderness Society; MDBA chairman Craig Knowles is a banker's agent—two bigger enemies of family farmers you'll never find," he charged.

"They do not intend to give irrigators a public forum to voice their opposition, because last time that opposition forced them into temporary retreat, but this time, just as with the carbon tax, they are determined to ram it through.

"Irrigators are beginning to sense they have been betrayed, because they were assured by Tony Burke and Craig Knowles and Tony Windsor that their concerns were taken on board. But the bottom line is that the *Water Act 2007* is 100 per cent based upon the WWF's *Ramsar Convention on Wetlands of International Importance*, and was written with the unmistakable intent to shut down agriculture in the Basin. That

remains the intention, "consultations" or not.

"Ramsar 'wetlands' are scientific fabrications derived from British kook and eugenicist Sir Arthur Tansley's bogus notion of 'eco-systems', which are defined to deliberately exclude human activity."

Isherwood concluded, "The CEC is leading the fight against the MDBA plan, because there must never be any compromise with genocide.

"What's at stake in this fight is not agricultural businesses; it is the rights of human beings to harness nature to grow food and exist.

"Every Australian must get behind the Murray-Darling Basin communities and fight with them, because if we let them be destroyed, the whole nation is doomed. The Crown's Green Fascists intend to shut down not only our food supply, but to turn virtually our continent back to 'wilderness', as our latest *New Citizen* documents beyond any margin of doubt."

Obama makes Australia a nuclear target

Julia Gillard is helping Barack Obama paint a target on Australia by establishing a U.S. military base in Darwin in the middle of Obama's mad drive to attack Iran and Syria and trigger a nuclear world war.

Obama is a British stooge, a carry-on from George Bush but worse, whom the British are using for their imperial strategy of "Balkanising" the Middle East to start WWII, the way they manipulated the Balkans to spark WWI.

Obama is using drones to murder U.S. citizens; he joined the Brits and French in murdering Libyan head of state Qaddafi; he trumped even Bush's gross triumphalism on the weekend by playing basketball on the U.S. aircraft carrier USS *Carl Vinson* that hurriedly buried Osama bin Laden at sea; and he is talking up the bogus threat of Iranian weapons of mass destruction from "evidence" the U.S., Brits and French planted in last week's International Atomic Energy Agency (IAEA) report, to give a nod and wink to the plan of crazy Israeli Prime Minister Benjamin Netanyahu to hit Iran and Syria with pre-emptive strikes.

Such strikes will force an Iranian counter-strike, followed by a U.S. response on Israel's behalf, and then a showdown with Russia and China.

In the middle of this, Gillard has ratcheted up Australia's military cooperation with Obama. She is providing a military base in Darwin, as one aspect of a huge expansion of the U.S. presence in Australia, and will sign the Australia-United States Defence Trade Cooperation Treaty, which heavily focuses on defence matters, to coincide with Obama's address to both houses of parliament, into which Gillard has introduced the *Defence Trade Controls Bill 2011*, in order to enact that treaty into Australian law.

Numerous strategic analysts have observed that the decision to establish a U.S. base in Darwin is deliberately provocative to China; the insanity of Australia's current foreign policy was underscored by the casual commentary from Brian Toohey on the ABC's *Insiders* program on 13th November, on what would be required to militarily defeat, and then occupy, China—Australia's largest trading partner and major source of national income! Toohey observed "we're signing up to this change in U.S. military doctrine where they're working out new ways to conduct a war against China ... you'll be sending your troops into the greatest human mincing machine ever seen."

The Obama-British war drive is currently a runaway train, which is the last thing the American people expected when they voted for Obama in 2008. U.S. statesman and physical economist Lyndon LaRouche issued a statement on 14th November explaining that the reason why the British are using Obama to achieve the insane objective of a nuclear world war, is because the British oligarchy views war as a means to reduce the world's population, in order to maintain control over the world in the context of the presently unfolding global financial collapse.

In his statement, "To stop World War III, Obama must be removed from office now", LaRouche warned, "If Barack Obama is not thrown out of office soon, civilization is in mortal danger. The British Monarchy is out to destroy the

United States as we know it, and Obama is their puppet instrument for accomplishing exactly that. The overall objective of this London-centered oligarchy is to reduce the world's present population from the current official level of seven billion to less than one billion.

"That is the issue that can no longer be dodged, if mankind is to survive the coming weeks and months. The present drive for World War III, beginning with the targeting of Iran and Syria, is driven by the British commitment to wipe out more than 80 percent of the human race, just as Prince Philip has demanded on numerous public occasions. Anyone who tries to deny this reality is endangering mankind by their failure to face the truth.

"The British are controlling Obama as their puppet. They are engineering the crisis in Europe to impose dictatorships, and they are behind the wars and threats of global thermonuclear war. They know that their entire trans-Atlantic financial and monetary system is dead. They know that the leading nations of the Asia-Pacific region—Russia, China, India, Japan and the Koreas—are growing, relative to the rapid trans-Atlantic disintegration. This is totally unacceptable from the British standpoint, and so they are using their puppet Obama to prepare for the United States to use nuclear weapons in a global conflict, already set in motion in the new cockpit for war—the Persian Gulf and Eastern Mediterranean region ..."

Responding to LaRouche's statement, Citizens Electoral Council leader Craig Isherwood called for Australians to demand the Gillard government back away from its support for the Obama-British war drive, and return the U.S.-Australian alliance to the principles of national defence and respect for national sovereignty on which the alliance was forged by John Curtin and Franklin Roosevelt in WWII.

"John Curtin broke with British imperial strategy to forge the U.S.-Australia alliance seventy years ago, and save Australia from fascist aggression," Isherwood said. "It is again time we broke with British strategy, this time to save the world from global genocide."

Eleanor Roosevelt and John Curtin at a state dinner in Canberra in 1943. Their alliance, based on defending national sovereignty, has been subverted by Bush-Howard, and now Obama-Gillard.
